John F. Kennedy, President of the U.S.
Washington D.C.

Dear Sir,

The idea of spending 50,000.00 dollars of my tax money for Powers does not seem right to me when he goofed the deal, did not destroy the U-2 and him self.

We are not paying 2500 a month just to fly over the U.S.S.R.

// The "clean bill of health" seems only a act of kindness on your part.

The thing makes me mad!

We are letting him act just like a un-responsible teen-ager that says with a shrug of the sholders " so I goofed ".

Yours truly,

I bet Glenn didn't get 50,000 for his efforts.
